| ✓ CSS  | ✓ Typescript | ✓ Redux   | ✓ Material UI |
| ✓ EJS  | ✓ React.js   | ✓ Zustand | ✓ Mantine UI  |

### Back End Development

- |                |            |            |           |
|----------------|------------|------------|-----------|
| ✓ Node.js      | ✓ MongoDB  | ✓ Mongoose | ✓ Postman |
| ✓ Express      | ✓ Firebase | ✓ Prisma   |           |
| ✓ Visual Basic | ✓ MySQL    | ✓ REST API |           |

### Project Management & Tools

- |          |             |
|----------|-------------|
| ✓ Github | ✓ Figma     |
| ✓ Git    | ✓ Photoshop |
| ✓ Trello |             |

## Professional Work Experience

### Junior Web Developer Intern, Wela Online System | July – October 2022

- Assists in the design and development of responsive web applications and websites.
- Collaborate with the development team to brainstorm and implement innovative web solutions.
- Develop code in React.js that adheres to clean code architecture principles to ensure it is both well-structured, optimized for performance, and easy to maintain.
- Conduct testing and debugging to ensure the functionality and performance of web applications.

---

**Desktop Support Technician**, San Benissa Garden Villa | October – December 2017

- Provide support for operating systems, applications, and software installations.
- Troubleshoots software issues, assists with software updates, and provide guidance to end-users on using various software tools.
- Assists in diagnosing and resolving hardware issues for desktops, laptops, printers, and peripherals. Identify and replace faulty components such as hard drives, motherboard, etc.
- Assists in maintaining an inventory of computer hardware, software licenses, and other technology assets. Track and document equipment allocation and disposals.

---

**Academic Achievements and Projects**

---

**S-clique E-commerce Capstone Project**

November 2022 – June 2023

- Led a team of four developers and designers in the successful completion of a comprehensive capstone project focused on creating a fully functional e-commerce website for RNJ Window Blinds Trading.
- Utilized React, Next.js for optimizing the SEO and integrating features such as product listing, user registration, shopping cart functionality and secure payment.
- Significantly improved the overall performance and functionality of the e-commerce website, leading to positive feedback from users of RNJ Window Blinds Trading.

**ITechivity Exhibit 2023**

April 27 – April 29, 2023

- Participate in the event by submitting our capstone project "S-clique." I was responsible for setting up the exhibit, engaging with attendees, and presenting the project to visitors. Throughout the event, I effectively communicated the project's objectives and features to the audience.
- While our team did not secure any awards, our participation provided valuable experience. It allowed us to showcase "S-clique" to a wider audience, facilitating networking opportunities with professionals in our field. We also received positive feedback from attendees, validating the quality and innovation of our project.

---

**Educational Background**

---

**Bachelors in science, Information System**, University of Caloocan City (2019 – 2023)

**Computer Programming Strand**, Cielito Zamora Junior High School (2016 – 2018)

## **Certificates(s)**
