Relevant Experience

Associate Front End Developer (Intern), **Wela Online System** Aug – Oct 2022

- Adhering closely to the UI designer's vision, I developed dynamic and innovative web interfaces that prioritize user interaction and provide an exceptionally user-friendly experience.
- Engage in close collaboration with both the design and development teams to foster a cohesive and synergistic workflow that ensures the successful realization of projects.
- Identify and resolving problems, as well as enhancing the speed of user friendliness of web pages through troubleshooting, debugging and optimization techniques.

Desktop Support Technician (Intern), **San Benissa Garden Villa**, Oct – Dec 2017

- Provide prompt technical assistance, troubleshooting and maintaining network infrastructure for seamless operations. Customer centric approach ensured efficient IT service for resident staff.
- Craft visually appealing social media graphics with the aim of fostering higher engagement and encouraging increased participation from your audience.
- Optimize encoding methods and incorporate user-friendly formulas to streamline tasks within Excel spreadsheets, facilitating smoother and more efficient work processes.

Professional Skillsets

Programming Languages

Javascript, Typescript, Node-JS

Libraries & Frameworks

React-JS, Next-JS, React-Native, Redux, Zustand, Tailwind, Express

Other Languages

HTML, CSS, SASS, EJS

Tools & Platform

Git, GitHub, Vercel, Wordpress, Firebase, MongoDB, Figma, Shopify, Stripe-JS

Educational Attainment

University of Caloocan City North Campus (2019 – 2023)

Bachelor of Science in Information Systems

Cielito Zamora Senior High School (2016 – 2018)

Computer Programming Strand

Selected Projects

Sclique E-Commerce

During my university coursework, Me and my friend led a team to create a dynamic e-commerce platform. Leveraging my web development skills, we crafted a user-friendly website connecting buyers and sellers of windows blinds and upholstery products. Our intuitive interface allows users to explore, add products to their cart, and securely check out via PayPal.

Travel Website Landing Page

Discover your next adventure with our travel website! Powered by React, enhanced by Mantine UI, and hosted on Vercel, we offer seamless navigation, captivating design, and swift loading times. Plan your travels with ease and explore the world hassle-free. Your journey begins here.

Certification(s)

The Completed 2023 Web Development Bootcamp

Instructor **Dr Angela Yu**
<https://www.udemy.com/certificate/UC-ed479f0a-59b2-4c30-9497-7cdf20bd1f90/>

Other Interest

Basketball, Reading Books, Motorcycling, Watching Movies
